Made in Barausse

Barausse develops and manufactures closing systems, wall wooden paneling and equipped walls designed to make the living environment sublime. Barausse products are the result of a strong handcrafted tradition in woodworking combined with technical skills and a proactive approach. Sculpting a design that enhances the functionality, applying the knowledge and experience of our team to pursue beauty: we seek the unquestionable aim of creating a system of products that improves the quality of living and enhances the value of the project.

Barausse développe et produit des systèmes de fermeture et de séparation des espaces, des revêtements de paroi en bois et des cloisons équipées conçus pour sublimer la convivialité des environnements. Les produits Barausse résultent d'une tradition artisanale experte dans le travail du bois combinée à des compétences techniques et à une approche proactive et attentive au contexte. Façonner un design qui élève la fonctionnalité, mettre les connaissances et l'expérience de notre équipe au service du beau: nous poursuivons l'objectif essentiel de créer un système de produits qui améliore la qualité de vie et augmente la valeur du projet.

Barausse desarrolla y produce sistemas de cierre y separación de espacios, revestimientos de pared en madera y paredes equipadas diseñadas para sublimar la habitabilidad de los ambientes. Los productos Barausse son el resultado de una hábil tradición artesanal en el trabajo de la madera combinada con habilidades técnicas y un enfoque propositivo y atento al contexto. Moldear un diseño que ennoblece la funcionalidad, poner los conocimientos y la experiencia de nuestro equipo al servicio de la belleza: perseguimos el objetivo imprescindible de crear un sistema de productos que mejore la calidad de vida y aumente el valor del proyecto.

Barausse разрабатывает и производит системы закрытия и разделения пространств, облицовочные стеновые панели из дерева и оборудованные перегородки, задача которых - улучшить жилые условия. Продукция Barausse является результатом мастерства в обработке дерева, сочетающегося с техническими навыками и проактивным подходом к контексту. Формирование дизайна, который преобразует функциональность, применение знаний и опыта нашей команды для создания красоты - мы стремимся к необходимой цели создания системы продуктов, которая повышает качество жизни и увеличивает стоимость проекта.

Wood Couture

Una gestione sartoriale dei progetti, tra cura artigianale e precisione industriale. Studiamo il prodotto in ogni minimo dettaglio, assicurando così uno stile unico e prestazioni affidabili. Macchinari altamente automatizzati consentono precisione nella realizzazione dei prodotti e puntuale monitoraggio del processo.

A sartorial management of projects, between craftsmanship and industrial precision. We study the product in every detail, thus ensuring a unique style and reliable performances. Highly automated machines allow us to obtain high precision during production and careful monitoring of all processes.

Une gestion vestimentaire des projets, entre artisanat et précision industrielle. Nous étudions le produit dans les moindres détails, assurant ainsi un style unique et performances fiables. Des machines hautement automatisées sont gage de précision dans la réalisation des produits et de monitoring précis du processus.

Una cuidadosa gestión del proyecto, entre la artesanía y la precisión industrial. Estudiamos cada detalle del producto, asegurando así un estilo único y prestaciones fiables. Nuestra maquinaria altamente automatizada nos permite alcanzar la precisión en la fabricación de los productos y la monitorización puntual del proceso.

Индивидуальное управление проектами, между тщательным мастерством и промышленной точностью. Мы изучаем изделие до мельчайших деталей, обеспечивая тем самым неповторимый стиль и надежная производительность. Высокоавтоматизированное оборудование обеспечивает точность при изготовлении изделий и тщательный мониторинг процесса.

We dare to innovate everyday

Our team is passionate and inclusive

Sustainability is the leading concept for social responsibility

B - inspired and B - curious is our motto

We produce local, we sell worldwide

Barausse Values

La nostra azienda si fonda su valori imprescindibili che guidano ogni nostra azione. Integrità, innovazione e sostenibilità sono al centro del nostro impegno quotidiano. Crediamo nella collaborazione e nella trasparenza, come pilastri per costruire relazioni di fiducia con i nostri clienti e partner. Puntiamo a eccellenza e qualità, mettendo sempre al primo posto il benessere delle persone e il rispetto per l'ambiente. Questi valori ci ispirano a migliorare costantemente e a creare un impatto positivo.

Our company is founded on essential values that guide our every action. Integrity, innovation, and sustainability are at the core of our daily commitment. We believe in collaboration and transparency as pillars for building trustful relationships with our customers and partners. We aim for excellence and quality, always prioritizing people's well-being and respect for the environment. These values inspire us to continuously improve and create a positive impact.

Notre entreprise est fondée sur des valeurs essentielles qui guident chacune de nos actions. L'intégrité, l'innovation et la durabilité sont au cœur de notre engagement quotidien. Nous croyons en la collaboration et la transparence comme piliers pour établir des relations de confiance avec nos clients et partenaires. Nous visons l'excellence et la qualité, en priorisant toujours le bien-être des personnes et le respect de l'environnement. Ces valeurs nous inspirent à nous améliorer continuellement et à créer un impact positif.

Nuestra empresa se basa en valores esenciales que guían cada una de nuestras acciones. La integridad, la innovación y la sostenibilidad están en el centro de nuestro compromiso diario. Creemos en la colaboración y la transparencia como pilares para construir relaciones de confianza con nuestros clientes y socios. Apuntamos a la excelencia y la calidad, siempre priorizando el bienestar de las personas y el respeto por el medio ambiente. Estos valores nos inspiran a mejorar continuamente y a crear un impacto positivo.

Наша компания основана на важнейших ценностях, которые направляют каждое наше действие. Честность, инновации и устойчивое развитие лежат в основе нашего ежедневного стремления. Мы верим в сотрудничество и прозрачность как столпы для построения доверительных отношений с нашими клиентами и партнерами. Мы стремимся к совершенству и качеству, всегда ставя на первое место благополучие людей и уважение к окружающей среде. Эти ценности вдохновляют нас на постоянное совершенствование и создание положительного влияния.

Ethics & Aesthetics

Tutte le linee di prodotto sono realizzate rispettando parametri di qualità e certificazioni specifiche per il rispetto dell'ambiente e della salute. Le nostre porte sono realizzate con pannelli a bassa emissione di formaldeide, conformi alla normativa CARB2/TSCA title VI. Legni e decorativi sono privi di sostanze tossiche e certificabili FSC®. Vengono utilizzate vernici all'acqua, e gli incollaggi avvengono solo con colle viniliche prive di formaldeide.

All our product lines are made in compliance with quality parameters and specific environmental protection and health safety certifications. All our doors are made of low formaldehyde emission panels, compliant with the CARB2 / TSCA title VI standard. The decorative elements are free of toxic substances and eligible for FSC® certification. We use water-based paints and formaldehyde free vinyl glues.

Toutes les lignes de produits sont réalisées en respectant des paramètres de qualité et des certifications spécifiques de respect de l'environnement et de la santé. Toutes nos portes sont fabriquées avec des panneaux à faible émission de formaldéhyde, conformes à la norme CARB2 / TSCA title VI. Les éléments décoratifs sont exempts de substances toxiques et sont certifiable FSC®. On utilise des peintures à l'eau et des colles vinyliques sans formaldéhyde.

Todas las líneas de productos se fabrican respetando los parámetros de calidad y las certificaciones específicas para la consideración del medio ambiente y la salud. Todas nuestras puertas están fabricadas con paneles a baja emisión de formaldehído, cumpliendo con la norma CARB2 / TSCA title VI. Las decoraciones están libres de sustancias tóxicas y son certificable FSC®. Se utilizan pinturas al agua y el pegado se realiza únicamente con colas vinílicas sin formaldehído.

Все линейки продукции изготавливаются с соблюдением параметров качества и сертификаций по охране окружающей среды и здоровья. Все наши двери изготовлены из панелей с низким уровнем выделения формальдегида, соответствующих стандарту CARB2 / TSCA title VI. Декоры не содержат токсичных веществ, лакированные поверхности обрабатываются одоэмульсионными лаками, а для склеивания применяются только не выделяющие формальдегид виниловые клеи.

Barausse for Contract

Forte di numerose certificazioni per porte resistenti al fuoco e fonoisolanti, della progettazione di prodotti custom e la trentennale esperienza nel settore contract, Barausse opera nel mondo nella realizzazione di hotel di lusso, strutture pubbliche, costruzioni residenziali e ville private. Un unico interlocutore che cura la fornitura della porta in ogni fase del processo di project management. Dall'ideazione del progetto, alla fornitura del prodotto.

Thanks to multiple certifications of our fire-rated and soundproof doors, the ability to design bespoke products and our over thirty years of experience in the contract field, Barausse is able to provide worldwide a high quality product for luxury hotels, for public buildings, high end residential and private homes. A single point of contact who manages the door supply at every stage of the project management process. From project conception to product delivery.

Fort de nombreuses certifications pour portes résistantes au feu et acoustiques, de la conception de produits customisés et de l'expérience trentenaire dans le secteur contract, Barausse opère au niveau mondial dans la réalisation d'hôtels de luxe, structures publiques, constructions résidentielles et villas privées. Un interlocuteur unique qui gère la fourniture de la porte à chaque étape du processus de gestion de projet. De la conception du projet à la livraison du produit.

De acuerdo con numerosas certificaciones de puertas resistentes al fuego y acústicas, con la proyectación de productos a la medida, y con sus treinta años de experiencia en el sector contract, Barausse trabaja en todo el mundo desarrollando hoteles de lujo, estructuras públicas, construcciones residenciales y villas privadas. Un único interlocutor que gestiona el suministro de la puerta en cada etapa del proceso de gestión de proyectos. Desde la concepción del proyecto hasta la entrega del producto.

Barausse обладает большое количество сертификатов и на противопожарные и на звукоизоляционные двери, производит двери по индивидуальным проектам и имеет тридцатилетний опыт работы в сегменте больших проектов. Именно поэтому Barausse работает успешно над созданием интерьеров в гостиницах класса люкс, общественных зданиях, жилых комплексах и частных виллах. Единый контактное лицо, которое управляет поставкой двери на каждом этапе процесса управления проектом. От разработки проекта до поставки продукта.

1.

Analisi del progetto e dei requisiti
 Un team dedicato alle forniture contract propone e gestisce soluzioni personalizzate per qualsiasi tipologia di progetto. Estetica, funzionalità, durabilità, rispetto dei budget, e dei requisiti normativi sono i principi guida dei nostri progettisti.

Analysis of the project and requirements
 A team dedicated to contract supplies is always available for customized solutions in any type of project. Aesthetics, functionality, durability, compliance with budgets, and regulatory requirements are the guiding principles of our designers and engineers.

2.

Ingegnerizzazione prodotto & Shop drawings
 Il team di Ricerca e Sviluppo, flessibile e altamente qualificato, persegue la ricerca della massima qualità, racchiudendo l'essenza del fare Barausse, dall'ideazione all'ingegnerizzazione. Forniamo tutti i disegni di commessa, i file BIM, le istruzioni di montaggio e tutto il necessario per l'integrazione dei nostri prodotti nel progetto.

Product engineering & Shop drawings
 The flexible and highly qualified R&D team, pursues the research of maximum quality, encapsulating the essence of what Barausse does, from conception to engineering. We provide all project drawings, BIM files, assembly instructions and everything you need for the integration of our products into the project.

3.

Scelta accurata dell'imballo
 La trentennale esperienza nella spedizione delle nostre porte nel mondo si traduce nella scelta di imballi resistenti e massima accuratezza nell'ottimizzazione degli spazi.

Attentive choice of packaging
 30 years of experience in delivering our doors all over the world have enabled us to offer a selection of resistant packaging and the highest precision in optimizing spaces.

4.

Etichettatura personalizzata
 Ogni collo è identificato da un'etichetta riportante tutte le informazioni, incluso il posizionamento.

Personalized labels
 Each box is identified with a label that contains all the pertinent information, including positioning.

5.

Tracciabilità
 Gestione documentale dettagliata disponibile tramite il portale dedicato.

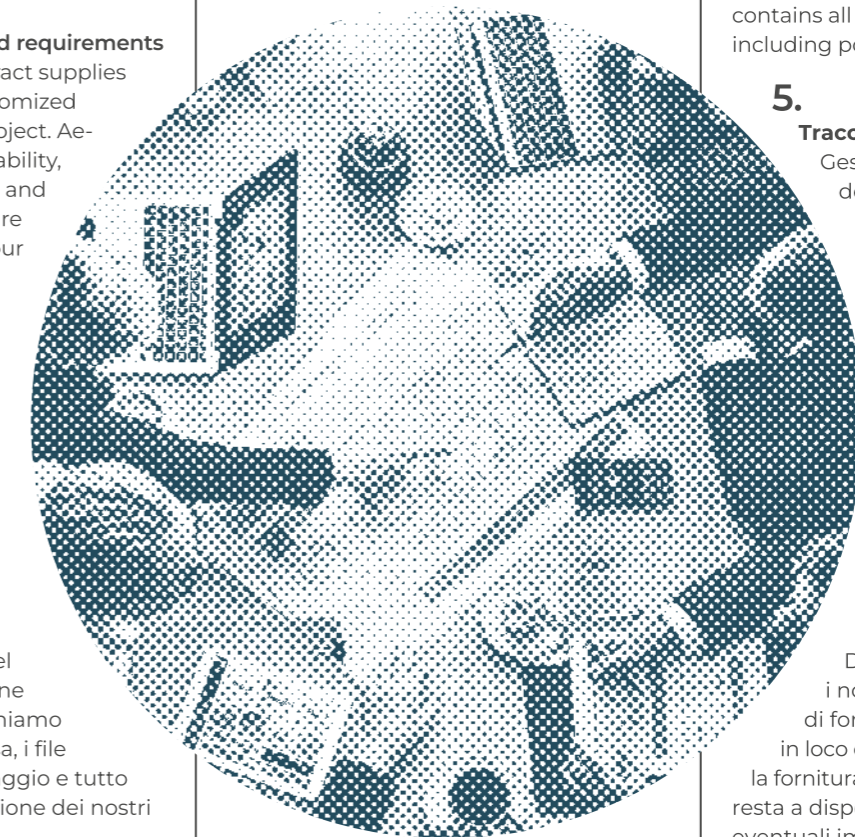

Traceability
 Detailed management of documentation available through our dedicated portal.

6.

Assistenza & rapida gestione degli imprevisti di cantiere

Dopo accurate fasi di collaudo, i nostri tecnici forniscono servizi di formazione agli installatori sia in loco che da remoto. Anche dopo la fornitura, il nostro team contract resta a disposizione per supportare eventuali imprevisti di cantiere fornendo assistenza in 7 lingue.

Assistance & quick management of unexpected construction sites incidents
 After careful testing phases, our technicians provide training services to installers both on site and online. Even after the supply, our contract team remains available to support any inconvenience in the construction site by providing assistance in 7 languages.

Continuity

Integration system

Continuity rappresenta un passaggio naturale dal “sistema porta” all’ampliamento di prodotti integrabili, tra cui sistemi scorrevoli, partizioni, cabine armadio, pareti attrezzate e ante pivotanti. Il sistema conferma la mission dell’azienda: sviluppare e fornire soluzioni anche personalizzabili, rispondenti alle sempre più alte aspettative derivanti dal prodotto Made in Italy.

EN Continuity represents a natural transition from the "door system" to the expansion of integrable products, including sliding systems, partitions, walk-in closets, equipped walls and pivoting doors. The system confirms the company's mission: to develop and supply customizable solutions, meeting the increasingly high expectations deriving from Made in Italy products.

FR Continuity représente une transition naturelle du "système de porte" à l'expansion des produits intégrables, y compris les systèmes coulissants, les cloisons, les dressings, les parois équipés et les portes pivotantes. Le système confirme la mission de l'entreprise: développer et fournir des solutions personnalisables répondantes aux attentes de plus en plus élevées des produits Fabriqué en Italie.

ES Continuity representa una transición natural del "sistema de puertas" a la expansión de los productos integrables, incluidos los sistemas deslizantes, los tabiques, los vestidores, las paredes equipadas y las puertas pivotantes. El sistema confirma la misión de la empresa: desarrollar y suministrar soluciones personalizables, respondiendo a las expectativas cada vez más altas derivadas de los productos Hechos en Italia.

RU Continuity представляет собой естественный переход от “дверной системы” к более широкому ассортименту доступных продуктов, включая раздвижные системы, перегородки, гардеробные, оборудованные стенки и поворотные двери. Система подтверждает миссию компании: разработка и поставка полностью персонализируемых решений, отвечающих все более высоким ожиданиям от изделий итальянского производства.

Il sistema Continuity, realizzato in maniera squisitamente sartoriale, integra soluzioni di chiusura con rivestimenti boiserie ed elementi di arredo. In questo *unicum* di ampio respiro e versatilità, si conferisce agli spazi abitativi coerenza estetica e funzionalità. La combinazione di elementi esalta la percezione dello spazio diffondendo sensazioni di armonia e benessere.

The Continuity system, made in an exquisitely sartorial fashion, combines opening solutions with wall paneling and furnishing elements. The broad scope and versatility of this unique concept endows living spaces with aesthetic coherence and functional features. The combination of elements enhances the perception of space, conveying a feeling of harmony and well-being.

Porte, scorrevoli, boiserie, partizioni, pareti attrezzate e cabine armadio. Le soluzioni Barausse sono in grado di creare architetture d'interno di grande prestigio e coesione stilistica. Il sistema è il risultato di un'evoluzione progettuale e di mercato, rispondente alla crescente esigenza di

creare ambienti dal design versatile e total look, lasciando massima libertà compositiva al progettista o committente. Ambienti open space modulabili, a seconda delle esigenze e a seconda dell'utilizzo, che mantengono una qualità di finitura elevata propria del prodotto Made in Italy.

L'ambiente neutro rappresenta le possibilità funzionali e stilistiche del progettista.

The neutral environment represents the functional possibilities and stylistic features of the designer.

Architetture d'interno di grande prestigio e coesione stilistica, creano ambienti *design oriented* dal look totalizzante e perfettamente integrato.

Interior architectures of great prestige and stylistic cohesion, create design oriented environments with an all-encompassing and perfectly integrated look.

Hinged doors, sliding doors, boiserie, partitions, equipped walls and walk-in closet. Barausse solutions are able to create interior architectures of great prestige and stylistic cohesion. The system is the result of a design and market evolution, responding to the growing needs to create environments with a versatile design and total look, leaving maximum compositional freedom to the designer or clients. Modular open space environments, depending on the needs and depending on the use, which maintain a high-quality finish typical of the Made in Italy products.

Portes, coulissantes, boiserie, cloisons, parois équipées et dressing. Les solutions Barausse sont capables de créer des architectures intérieures de grand prestige et de cohésion stylistique. Le système est le résultat d'une évolution du design et du marché, répondant aux besoins croissants de créer des environnements au design polyvalent et au look total, laissant une liberté de composition maximale au concepteur ou aux clients. Environnements open space modulaires, en fonction des besoins et de l'utilisation, qui maintiennent une finition de haute qualité typique des produits Made in Italy.

Puertas, correderas, boiserie, mamparas, paredes equipadas y vestidores. Las soluciones de Barausse son capaces de crear arquitecturas interiores de gran prestigio y cohesión estilística. El sistema es el resultado de una evolución del diseño y del mercado, respondiendo a las crecientes necesidades de crear ambientes con un diseño versátil y total look, dejando la máxima libertad compositiva al diseñador o al cliente. Ambientes modulares open space, según las necesidades y según el uso, que mantienen un acabado de alta calidad típico de los productos Made in Italy.

Распашные и раздвижные двери, буазери, перегородки, стенки и гардеробные. Решения Barausse позволяют создавать очень престижные интерьеры, выдержанные в одном стиле. Система является результатом эволюции дизайна и рынка, отвечая растущим потребностям в помещениях с универсальным дизайном и целостным образом, оставляя максимальную свободу композиции дизайнеру или клиентам. Открытые пространства, модулируемые в зависимости от потребностей и назначения, которые сохраняют высококачественную отделку, типичную для изделий Made in Italy.

La proposta pannello che riecheggia lo stile giapponese, dove ordine e pulizia definiscono la qualità dell'abitare. La collezione è caratterizzata da una sottile cornice che riquadra le pannellature impreziosendo gli spazi.

The panel proposal echoes Japanese style, where order and cleanliness define the quality of living. The collection is characterized by a thin frame that outlines the panels, enhancing the spaces.

Yugen [termine giapponese]
 Consapevolezza della bellezza nascosta dell'universo, impossibile da descrivere a parole, ma che genera emozione. Il fascino delle cose che non si riescono a comprendere fino in fondo. In arte e letteratura, un concetto simile potrebbe essere quello indicato dal termine "simbolismo".

Yugen [japanese term]
 Awareness of the hidden beauty of the universe, impossible to describe in words, but which elicits emotion. The fascination of those things which we cannot fully comprehend. In art and literature, a similar concept could be conveyed by the term "symbolism".

Casa Barausse

Casa Barausse è un'abitazione virtuale ispirata alle attuali tendenze architettoniche e appositamente progettata per esprimere le potenzialità della nostra proposta Continuity. Barausse riesce ad arredare ogni area della casa con specifiche tipologie di prodotto in base alla destinazione funzionale della stanza, garantendo la massima coerenza stilistica.

Casa Barausse is a virtual home inspired by current architectural trends and specially designed to express the potential of our Continuity proposal. Barausse manages to furnish every area of the house with specific types of products based on the functional purpose of the room, while guaranteeing maximum stylistic coherence.

Casa Barausse

visual project

Virtual tour

Casa Barausse è un progetto visuale di ampio respiro che interpreta in modo concreto una filosofia di vivere sostenibile, e il recupero di una fruizione qualitativa dell'arredo quotidiano. Un progetto residenziale totalizzante, con chiari riferimenti alle architetture trasparenti mid-century modern, in simbiotico rapporto col paesaggio circostante. Uno stile senza tempo che pone l'uomo al centro dell'abitare, caratterizzato da linee pulite e geometrie semplici ed eleganti. Nello sviluppo abbiamo dato grande importanza anche alla scelta dei materiali utilizzati per enfatizzare concetti come comfort e naturalità.

Casa Barausse is a wide-ranging visual project which adopts a concrete interpretation of a philosophy of sustainable living, restoring appreciation for the quality of everyday furnishings. A totally absorbing residential project with clear references to the transparencies of mid-century modern architecture, which establish symbiotic relations with the surrounding landscape. A timeless style that places the individual at the centre of the living experience, and features pure lines and simple, elegant geometries. We have developed the project by particularly focusing on the choice of materials to emphasise concepts such as comfort and naturalness.

La struttura dai contorni netti riecheggia i fasti del modernismo in chiave contemporanea, combinando forme e colori della natura con la geometria essenziale dello stile architettonico. Lo sviluppo distributivo del pian terreno è il risultato della perfetta fusione tra architettura e paesaggio: le grandi superfici lisce che riflettono la luce solare e le ampie vetrate che offrono vedute panoramiche su specchi d'acqua e verde circostante. Una pianta aperta, sviluppata in modo addittivo ed organico, creata per assecondare le esigenze dell'uomo contemporaneo, secondo la filosofia Barausse.

The clear-cut structure echoes the magnificence of modernism with a contemporary twist, combining the shapes and hues of nature with the essential geometry of the architectural style. The ground floor layout is the outcome of the perfect fusion of architecture and landscape, precisely the large, smooth surfaces reflecting sunlight, and the ample windows offering scenic views of water and surrounding vegetation. An open plan, developed in an additive and harmonious manner to meet the needs of the contemporary individual, according to the Barausse philosophy.

Piano Terra
Ground Floor

Piano Primo
First Floor

Lo sviluppo del piano superiore invece si articola secondo le esigenze di fruizione degli spazi, ponendo maggiore attenzione agli ambienti dedicati alla cura della persona. Un progetto completo ed umano-centrico che restituisce la visione del vivere Barausse: un ambiente armonioso studiato al minimo dettaglio, con arredi, porte e rivestimenti in continuità, appaga la vista e regala sensazioni di benessere.

The top floor is, instead, organised according to user needs, with particular focus on self care areas. A comprehensive, person-centred project, which restores Barausse vision of living. An harmonious environment studied down to the smallest detail, with a continuous flow of furniture, doors and paneling, to please the eye and convey a feeling of well-being.

“Accostiamo il calore del legno alla neutralità dell'alluminio per creare ambienti sofisticati”

“We combine the warmth of wood with the neutral shade of aluminum to create sophisticated environments”

L'ingresso della casa è l'ambiente del benvenuto, dove lo spirito di accoglienza viene condizionato dalla modulazione della luce e dall'armonia delle tonalità. Per trasmettere una sensazione di benessere fin dal primo passo dentro l'abitazione, abbiamo creato un ambiente luminoso, con pareti rivestite dalle calde note del legno naturale: un noce americano dalla fiammatura equilibrata. Complice la vegetazione che si scorge dalle pareti vetrate della casa, la percezione è di essere accolti da un abbraccio della natura.

The entrance to the house is the greeting area, where the welcoming spirit is influenced by the modulation of light and the harmony of shades. To convey a feeling of well-being from the very first step, we designed a bright environment with walls covered with the warm notes of natural wood: an American walnut with balanced wood grain. Thanks to the external vegetation that can be seen from the glass walls, the perception is that of being embraced by nature.

Abbiamo mantenuto, senza compromessi, la linearità delle pareti integrando i vani di servizio che ospitano cappotti e accessori, anche grazie all'uso di grandi porte pieghevoli perfettamente complanari e integrate alle boiserie. Per preservare l'elegante continuità delle venature, abbiamo scelto di utilizzare ante a tutta altezza. L'apertura delle ante avviene con l'ausilio di sottili profili maniglia in alluminio, dettagli raffinati e discreti che preservano l'equilibrio dell'ambiente. Abbiamo infine attrezzato il vano interno con un sistema di pannelli, mensole, contenitori e accessori abbinati alle finiture delle porte.

We managed to maintain, without compromise, the linearity of the walls by integrating the service openings for coats and accessories and by using large folding doors combined with the boiserie and perfectly flush to the walls. To preserve the elegant continuity of the grain, we chose to use floor-to-ceiling doors. The doors can be easily opened with the help of thin aluminum handle profiles, refined and discreet details that maintain the overall balance. Finally, we equipped the internal compartment with a system of panels, shelves, drawers and accessories combined with the door finishes.

Cucinare è un momento irrinunciabile di condivisione con famiglia e amici. La cucina diventa sempre più un'estensione dello spazio dedicato alla convivialità e agli ospiti. Per delinearne la continuità con gli ambienti più nobili, il rivestimento boiserie dell'ingresso e del soggiorno prosegue anche nell'area vetrata. Il passaggio verso la zona più tecnica della cucina è chiuso da due ampie ante scorrevoli con vetro satinato e profili di alluminio che consentono di far trasparire la luce e celare, a necessità, un ambiente più operativo e riservato.

Cooking is a special moment one shares with family and friends. The kitchen is increasingly becoming an extension of the space dedicated to social gatherings and guests. The entrance and living room paneling continues in the area with large glass panes to underscore continuity with rooms assigned a more 'noble' use. The passage to the technical area of the kitchen is closed by two large sliding doors featuring satin-finished glass and aluminium profiles, designed for light to shine through, while necessarily concealing a more functional and reserved area.

Il progetto prevede spazi di grande respiro. Dall'ampio corridoio si accede alla sala musica attraversando due importanti ante scorrevoli. Abbiamo voluto mantenere passaggi di luce di estremo impatto, ma, al tempo stesso, abbiamo modulato le necessità di privacy con l'impiego dei vetri satinati. La continuità visiva di questa zona di passaggio è declinata attraverso le diverse forme e dimensioni dei materiali; ecco che le ante in vetro e alluminio sono impreziosite da profili di legno in abbinamento alle boiserie che rivestono l'intero corridoio.

The project envisages large spaces. The broad corridor leads to the music room through two large sliding doors. We have maintained highly impressive shafts of light, while also modulating the need for privacy by using frosted glass. The visual continuity of this transition area unfolds with different shapes and sizes of the materials. The glass and aluminium doors are embellished with wooden profiles to match the wood paneling that covers the entire corridor.

La casa è il luogo anche per coltivare i propri interessi. In questo progetto abbiamo creato un ambiente dedicato alla passione per il cinema. Dal corridoio principale, attraversando una porta scorrevole integrata alla boiserie, si accede ad un corridoio dedicato alla collezione di locandine di film d'epoca autentiche.

Home is also a place to cultivate hobbies. This project features a room for movie enthusiasts. From the main corridor, a sliding door built into the woodwork leads to a corridor displaying a collection of authentic vintage film posters.

Da questo spazio museale, si passa alla sala proiezione attraverso un'ampia **porta doppia dalle prestazioni fonoisolanti** (fino a 38 dB) che garantisce la qualità nella fruizione degli spazi interni ed esterni all'ambiente stesso. Internamente, la boiserie in legno lavorato tridimensionalmente è parte dell'esperienza sensoriale della sala.

From this museum space, one steps into the cinema room through a large **soundproof double door** (up to 38 dB), studied to ensure the excellent quality of space both inside and outside the movie room. Internally, the three-dimensional wood paneling is part of the room's sensory experience.

“Lo sviluppo [...] si articola secondo le esigenze di fruizione degli spazi, ponendo maggiore attenzione sugli ambienti dedicati alla cura della persona. Un progetto completo ed umano-centrico che restituisce la visione del vivere Barausse: un ambiente armonioso studiato al minimo dettaglio, con arredi, porte e rivestimenti in continuità, appaga la vista e regala sensazioni di benessere”

“The development [...] is organised according to user needs, with particular focus on personal care areas. A comprehensive, person-centred project, which restores Barausse vision of living. An harmonious environment studied down to the smallest detail, with a continuous flow of furniture, doors and paneling, to please the eye and convey a feeling of well-being”

La camera per gli ospiti è un ambiente curato e studiato per garantire accoglienza e benessere. La porta d'ingresso è rivestita con pannelli di vero cuoio impreziositi da cuciture a vista e, all'interno della stanza, tre ante vetrate formano un'elegante parete divisoria che nasconde gli ambienti compositivi.

The guest room is refined and specially studied to ensure cosy well-being. The entrance door is lined with genuine leather panels embellished with visible stitching and, inside the room, three glass doors form an elegant partition, which conceals the spaces of the composition.

Il vetro, in questo caso, viene sapientemente usato per giocare con la luce e per dare respiro allo spazio. Due ante scorrevoli con vetro satinato fumé delimitano elegantemente la nicchia dedicata alla cabina armadio, cui si accosta un'anta identica, ma con apertura a bilico, per accedere al bagno privato. Le ante sono adornate da semplici profili in alluminio tra i quali si cela una maniglia integrata, pensata per non compromettere l'armonia estetica della composizione.

In this case, glass is artfully used to play with light and expand space. Two clear smoked frosted glass sliding doors elegantly define the niche allocated in the walk-in wardrobe. Beside it, an identical but pivoting open door leads to the private bathroom. The doors feature simple aluminium profiles, one of which actually consists in an affordance handle designed to maintain the aesthetic harmony of the composition.

Pareti e sistemi divisori realizzati su misura con la finalità di creare e dividere gli spazi valorizzandoli. Frutto di continua innovazione di proposte e stili, il sistema si compone di elementi fissi e scorrevoli adattabili secondo le proprie esigenze e lay-out, riuscendo ad integrare i vari prodotti Barausse in maniera perfettamente continuativa. Design contemporaneo ed estetica di lusso guidano l'utilizzo del prodotto che, attraverso sistemi di fissaggio a parete, a soffitto e a pavimento, possono essere regolati per sopperire le eventuali imperfezioni edilizie. Il sistema, estremamente semplice e leggero, è adatto sia a contesti privati che pubblici ed è particolarmente indicato per ricreare situazioni intime e confortevoli negli open space.

Custom-made walls and dividing systems with the aim of creating and framing spaces with added value. Resulting from constant innovation and stylistic research, the system consists of fixed and sliding elements that can be adapted to suit your needs and layout, managing to integrate the various Barausse products in a perfectly continuous way. Contemporary design and luxury aesthetics guide the use of the product which, through wall, ceiling and floor fixing systems, can be adjusted to compensate for any building imperfections. The system, extremely simple and light, is suitable for both private and public contexts and is particularly appropriate for recreating intimate and comfortable situations in open spaces.

Oltre a dividere gli ambienti, le porte possono essere anche funzionali e presentare finiture diverse per mimetizzarsi con l'ambiente circostante. In Casa Barausse ad esempio, una porta laccata inserita in una stanza dedicata al trucco, diventa uno specchio a tutta altezza all'interno della cabina armadio. Questa soluzione bifacciale consente la massima personalizzazione per adattare il prodotto secondo le esigenze estetiche e funzionali richieste.

In addition to dividing the rooms, doors can also be functional and the same door can also have different finishes to blend in with the environment. In Casa Barausse for example, a lacquered door inserted in a glam room becomes a full-height mirror on the other side. This double side solution allows maximum customization to adapt the product according to the aesthetic and functional needs required.

Le pareti attrezzate **Upload**, perfettamente integrabili con il sistema **Continuity**, si compongono di elementi personalizzabili e componibili secondo le proprie esigenze. Ripiani attrezzati, cassettiere e boiserie studiate nel minimo dettaglio per dare un gusto raffinato al tuo ambiente.

Upload si compone di elementi funzionali impreziositi da raffinati profili metallici e integrabili da sottili fasci luminosi LED. L'intero sistema è studiato per personalizzare l'area guardaroba con ripiani e cassettiere modulabili secondo le proprie esigenze.

Upload wall panels, which can fit perfectly into the **Continuity** system, are made up of modular elements that can be customized according to one's needs. Shelves, chest of drawers and boiserie are carefully designed to give a refined taste to your rooms.

The **Upload** collection is made up of functional elements embellished with elegant metal profiles which can be integrated with slender LED lighting strips. The entire system is designed to customize the wardrobe area through the modular shelves and drawers that can be arranged according to one's needs.

Funzionalità Estetica

Functional Aesthetics

Le porte tagliafuoco sono soluzioni progettuali certificate e omologate secondo le normative vigenti in Europa, in Svizzera e negli Stati Uniti d'America. Queste soluzioni sono il frutto dell'unione tra prestazione ed estetica. Ante completamente personalizzabili con telaio nascosto per permettere la massima libertà espressiva, celano alte performance di resistenza al fuoco fino a 60 minuti e ai fumi caldi e freddi.

EN Fire-rated and soundproof doors follow the regulations in force in Europe, Switzerland and the United States. These solutions come from the combination of top performance and refined aesthetics. Fully customizable doors with hidden frame, give maximum freedom of expression, fire resistance up to 60 minutes and protection against hot and cold smokes.

FR Portes coupe-feu et insonorisées suivent la réglementation en vigueur en Europe, en Suisse aux États-Unis. Ces solutions allient performance et esthétique. Portes entièrement personnalisables avec cadre caché, offrant une liberté d'expression maximale, une résistance au feu jusqu'à 60 minutes et une résistance aux fumées chaudes et froides.

ES Puertas cortafuegos e insonorizadas respetan las normativas vigentes en Europa, Suiza y el Estados Unidos. Estas soluciones surgen de la combinación de rendimiento y estética. Puertas totalmente personalizables con marco oculto, dando máxima libertad de expresión, resistencia al fuego hasta 60 minutos y protección a los humos fríos y calientes.

RU Противопожарные и звуконепроницаемые двери соответствуют нормам, действующим в Европе, Швейцарии и Соединенных Штатах. Эти решения представляют собой сочетание производительности и эстетики. Полностью настраиваемые двери со скрытой рамой, обеспечивающие максимальную свободу самовыражения, огнестойкость до 60 минут и устойчивость к горячим и холодным парам.

La perfetta complanarità delle porte filomuro integrate in boiserie è ottenuta grazie all'utilizzo del telaio SECRET in alluminio. Questo tipo di telaio è progettato per integrarsi senza soluzione di continuità sia su pareti in cartongesso che in muratura, creando un aspetto estetico uniforme.

Una soluzione estetica ad alto tasso di design che offre elevate prestazioni tagliafuoco, mantenendo inalterate qualità di sicurezza e protezione della salute. Prestazioni certificate e conformi alle normative europee, statunitensi e svizzere.

The perfect flush-to-wall integration of doors into wainscoting is achieved through the use of the SECRET aluminum frame. This type of frame is designed to seamlessly integrate into both drywall and masonry walls, creating a uniform aesthetic appearance. It's a high-design aesthetic solution that also provides excellent fire-resistant performance, ensuring safety and well-being. These performances are certified and comply with European, American, and Swiss regulations.

La parfaite intégration des portes à fleur de paroi dans les lambris est obtenue grâce à l'utilisation du cadre en aluminium SECRET. Ce type de cadre est conçu pour s'intégrer de manière transparente dans les murs en plaques de plâtre et en maçonnerie, créant ainsi une apparence esthétique uniforme. Il s'agit d'une solution esthétique de haut niveau qui offre d'excellentes performances résistantes au feu, garantissant ainsi la sécurité et le bien-être. Ces performances sont certifiées et conformes aux réglementations européennes, américaines et suisses.

La perfecta integración de las puertas al ras de la pared en el lambrizado se logra mediante el uso del marco de aluminio SECRET. Este tipo de marco está diseñado para integrarse de manera uniforme en paredes de cartón yeso y mampostería, creando una apariencia estética uniforme. Es una solución estética de alto diseño que también ofrece un excelente rendimiento resistente al fuego, garantizando la seguridad y el bienestar. Estas actuaciones están certificadas y cumplen con las regulaciones europeas, estadounidenses y suizas.

Идеальное внедрение дверей в стену в стиле "филомуро" в обрамлении достигается с использованием алюминиевой рамы SECRET. Этот тип рамы разработан для бесшовной интеграции как в гипсокартонные, так и в кирпичные стены, создавая однородный эстетический вид. Это высокодизайнерское эстетическое решение, которое также обеспечивает отличные огнестойкие характеристики, обеспечивая безопасность и благополучие. Эти характеристики сертифицированы и соответствуют европейским, американским и швейцарским нормам.

Finiture Finishes

“L’importanza della scelta cromatica e materica è fondamentale nello sviluppo progettuale di interni sofisticati. Barausse si propone di supportare architetti e progettisti d’interni nella creazione del “sentimento” estetico accostando legno, alluminio, pelle e colori. Un esercizio creativo propedeutico allo sviluppo di un progetto su misura all’insegna del bello e ben fatto. Ricerchiamo coerenza in ogni dettaglio per creare continuità tra gli ambienti, combinando elementi per esaltare la percezione dello spazio tra armonia e benessere.”

“The importance of choosing the right colours and materials is essential in the design of sophisticated interiors. Barausse aims to support architects and interior designers in creating the aesthetic “feeling”, combining wood, aluminum, leather and colours. A creative act dedicated to the development of bespoke project in the name of beauty and well-made. We seek consistency in every detail to create continuity between environments, combining elements to enhance the perception of space between harmony and well-being.”

Colore

Il minimalismo di una porta battente filomuro esalta i materiali dell'anta e le conferisce carattere. Sono disponibili le versioni: ad anta singola, doppia, a filsoffitto o con sopra luce per incontrare ogni tipo di esigenza. In linea con la nostra filosofia, tutte le porte filomuro SECRET, vengono fornite con le migliori cerniere invisibili disponibili sul mercato, per mantenere alti gli standard qualitativi.

Laccato | Lacquered

Laccato Metal | Metal lacquered

Lacquered

For a lively and bright style, the lacquered doors are available in an extensive colour range. The finish is achieved with water-based paints, fully respecting both environment and health.

Laqué

Pour un style vivant et lumineux, les portes laquées sont disponibles dans une infinité de couleurs. La finition est réalisée avec des peintures à l'eau, dans le plus strict respect de l'environnement et de la santé.

Lacado

Para un estilo vivaz y luminoso, las puertas lacadas están disponibles en una infinita gama de colores. El acabado se realiza con pinturas a base de agua, respetando plenamente el medio ambiente y la salud.

крашенная

Для создания яркого живого стиля лакированные двери доступны в бесконечной цветовой гамме. Отделка выполнена красками на водной основе с полным вниманием окружающей среде и здоровью.

*Colori scala RAL non perfettamente corrispondenti, miscele colori create appositamente per Barausse
*RAL scale colors not perfectly matching, color blends created specifically for Barausse.

Legno

Lo stile che deriva dall'uso di un materiale naturale quanto più unico come il legno, rende il prodotto incomparabile e duraturo nel tempo.

Wood

The kind of style which derives from use of a natural, unique material as wood is, makes any product incomparable and evergreen.

Bois

Le style résultant de l'utilisation d'un matériel naturel et unique comme le bois rend chaque produit incomparable et durable.

Madera

El estilo que resulta de usar un material natural tan especial como la madera hace que el producto final sea único y atemporal.

Дерево

Стиль, который исходит от использования натурального материала, такого же уникального, как дерево, делает продукт несравненным и долговечным.

Materico

Una selezione di finiture contemporanee ed eleganti, che permettono di creare una nuova poetica degli spazi. Risultato di un'attenta ricerca del bello e del prezioso che si esprime nella moltitudine di materiali quali: pelli, carte pregiate, effetti pietra, nonché impasti di argille e quarzi in emulsione acquosa, per un profondo rispetto della materia e della salute.

Materia

A selection of contemporary and elegant finishes that allow for the creation of a new poetic interpretation of spaces. The result of a careful search for beauty and preciousness that is expressed in a multitude of materials, such as: fine leathers, precious papers, stone effects, as well as blends of clays and quartz in aqueous emulsion, for a deep respect for both the material and health.

Texturisé

Une sélection de finitions contemporaines et élégantes qui permettent de créer une nouvelle interprétation poétique des espaces. Résultat d'une recherche attentive de la beauté et de la préciosité qui s'exprime à travers une multitude de matériaux, tels que : cuirs de qualité, papiers précieux, effets de pierre, ainsi que des mélanges d'argiles et de quartz en émulsion aqueuse, pour un profond respect à la fois du matériau et de la santé.

Texturizado

Una selección de acabados contemporáneos y elegantes que permiten crear una nueva interpretación poética de los espacios. El resultado de una cuidadosa búsqueda de la belleza y lo precioso que se manifiesta en una multitud de materiales, como cueros de calidad, papeles preciosos, efectos de piedra, así como mezclas de arcillas y cuarzos en emulsión acuosa, para un profundo respeto tanto al material como a la salud.

Материальный

Выбор современных и элегантных отделочных материалов, которые позволяют создать новую поэтическую интерпретацию пространства. Результат тщательного поиска красоты и драгоценности, которые выражаются в множестве материалов, таких как: качественные кожи, дорогие бумаги, эффекты камня, а также смеси глины и кварца в водной эмульсии, для глубокого уважения к материалу и здоровью.

Pelle

Un simbolo di lusso nel design d'interni, la pelle aggiunge sofisticazione ed eleganza a qualsiasi spazio, elevando l'atmosfera con un fascino senza tempo.

Pelle | Leather 🌟

Leather

A symbol of luxury in interior design, leather adds sophistication and elegance to any space, elevating the atmosphere with timeless appeal.

Cuir

Symbole de luxe dans la décoration d'intérieur, le cuir ajoute sophistication et élégance à n'importe quel espace, rehaussant l'atmosphère d'un attrait intemporel.

Cuero

Un símbolo de lujo en el diseño interior, el cuero añade sofisticación y elegancia a cualquier espacio, elevando la atmósfera con un atractivo atemporal.

Кожа

Кожа, являющаяся символом роскоши в дизайне интерьера, придает изысканность и элегантность любому пространству, придавая атмосфере вневременную привлекательность.

Metallo

Le lavorazioni artigianali ed i processi di ossidazione attuati da De Castelli elevano il metallo al centro di una scena progettuale completamente rinnovata dove le finiture, uniche ed esclusive, trasmettono sensazioni e suggestioni fortemente materiche.

Metal

The craftsmanship and oxidation processes implemented by De Castelli elevate the metal to the center of a completely renewed design scene where the finishes, unique and exclusive, convey strongly material sensations and suggestions.

Métal

Les processus d'artisanat et d'oxydation mis en œuvre par De Castelli élèvent le métal au centre d'une scène de design entièrement renouvelée où les finitions, uniques et exclusives, transmettent des sensations et des suggestions fortement matérielles.

Metal

Los procesos artesanales y de oxidación implementados por De Castelli elevan el metal al centro de una escena de diseño completamente renovada donde los acabados, únicos y exclusivos, transmiten con fuerza sensaciones y sugerencias matéricas.

Металл

Мастерство и процессы окисления, реализованные De Castelli, поднимают металл в центр полностью обновленной дизайнерской сцены, где уникальная и эксклюзивная отделка передает ощущения и предложения, которые сильно текстурны.
